1 Recreating Code for MAC Manzini

Word embeddings sources:

- the same as the authors - Reddit-L2 corpus (reddit.l2.tar.gz) from http://cl.haifa.ac.il/projects/L2/

- our idea - GoogleNews corpus (GoogleNews-vectors-negative300.bin.gz.) from https://code.google.com/archive/p/word2vec/

Getting cosine similarity and cosine distance:

Description of the precedure:
TODO: Run code with fresh downloaded corpora

2 Adding control groups

2.1 Human words assumptions and procedure of creation

TODO

2.2 Neutral words assumptions and procedure of creation

TODO
